"On the battlefield of tomorrow there will be two types of Marines: Well trained

III MEF NBC Defense Brief

Focused upon Operations

- **Counter-NBC CONOPS Development**
  - *To organize, train, and equip the force to make risk-based decisions and gain operational advantage*
  - *NBC defense operations rely upon risk-based decision making, individual and collective protection equipment, and integrated individual, unit, and APOD/SPOD location actions*
- **Increased emphasis on training IOT project operational success**
  - *Actions must be geared to preserving combat power or regaining combat power*

"On the battlefield of tomorrow there will be two types of Marines: Well trained

III MEF NBC Defense Brief

Projecting our Requirements

- **Decontaminants**
  - Replace DS-2
  - Non–corrosive & non-toxic, use less water
- **Bio Detection**
  - Either HHAs with DFUs or something else
- **Sample Collection**
  - NBC Sampling Kit
- **Sample Transfer**
  - Suspect Sample Evacuation Kit

iversal Needs Statement (UNS): Submit to Add, Improve or Rem
